Top Skills

React Native
Ruby on Rails
AWS Lambda

Certifications

Node.js
Web Programming with Python and
JavaScript
ReactJS

Marcelo Arraes Teixeira

Fullstack developer | Reactjs | React Native | Nextjs | Typescript |
Django | Nodejs
Adelaide, South Australia, Australia

Summary

Hey there, I'm Marcelo!

I graduated in Information Systems from the Federal University of Ceará, and ever since I completed the Web Development course at Harvard, I've been fully immersed in the world of web development. Currently, I'm focused on honing my skills in ReactJS, React Native, and Typescript, constantly striving to improve my fundamentals while working on exciting projects.

As a web developer, I find immense joy in my work and the continuous learning it brings. I pride myself on being a quick learner and I strongly believe in the power of consistency. That's why I make it a point to commit to at least one project on my GitHub every day. However, I'm not one to make commits just for the sake of it. Each commit represents the successful implementation of a new functionality or a valuable improvement. On days when I encounter challenges in the development process, I seize the opportunity to document detailed README descriptions for my projects on Git.

For me, every technical test is a chance to expand my knowledge and skills. I love pushing myself to explore new concepts and ideas, both in terms of what I'm currently learning and what I aspire to learn in the future.

I'm well-versed in various technologies, including React, ReactJS, React Native, React-Native, Next.js, Typescript, JavaScript, Node.js, Rails, and Ruby on Rails. If you ever need assistance or have any questions regarding these topics, feel free to reach out!
